

Technical Service Support

Location: Dorval, QC

What you will do:

- Support the sales team on projects and opportunities to maintain market share growth within the region
- Act as a technical resource for inquiries relating to our chemical products
- Provide requested documentation and complete questionnaires from our pharmaceutical, food and sanitation customers
- Act as a technical liaison between the suppliers and the customers
- Interact with customers and suppliers as well as the quality assurance departments in order to help our customers meet the industry requirements
- Communicate with suppliers, Univar divisions, and warehouses to complete requests for our customers
- Maintain our database of technical information regarding our products and suppliers
- Back up for other technical services personnel
- Other duties as required

What you will require:

- University degree or College Diploma in Chemistry, Chemical Engineering or related field is required
- Must have proficient computer knowledge in Microsoft Office Suite
- The candidate must have excellent oral and written communication skills in both French and English
- Must be a self-starter and self-motivator
- Must have the ability to multitask, work under pressure and adhere to deadlines
- Previous technical support, sales or customer service experience an asset

How do I apply?

Please send your resume and cover letter in Word or PDF format to toronto.hr@univarcanada.com . Please indicate the job title (Technical Service Support - Dorval) in the subject line of your email. Please note that candidates are subject to background and reference checks.

About Univar

Univar Canada is the leading distributor of chemistry and related innovative products and services in Canada. We provide more chemical products and related services than any other company in the marketplace. Our wide distribution network, with locations coast-to-coast, helps guarantee fast, reliable service to Univar's customers.

Safety is our first priority, both the starting point and foundation for all aspects of our global business operations. Safe transport and storage of products, safe operational practices and safe working conditions enable us to protect our employees, customers, suppliers and the environment.
