

# Maintenance Supervisor

**Location: Edmonton, AB**

**Job ID Number: MSEDM1905**

At Univar, we believe our culture is second to none. Imagine the stability of a multi-national corporation, with the comradery of a start-up. We foster a friendly, welcoming, high-performance environment where every idea and initiative is given the respect and attention it deserves. We're proud to offer our employees:

- Competitive salaries
- Comprehensive Medical/dental benefits
- Industry leading pension plan
- Bonus opportunities
- Paid training and development programs at every level
- Global career advancement and mentoring opportunities
- Education allowance

Our team is successful due to our mix of diverse backgrounds, education, experience and careers, and we are proud to be included on the Alberta Top 75 Employer list and a recipient of Canada's Safest Employer award!

## About the position

Reporting to the Plant Manager, the Maintenance Supervisor is a key member of our Operations team. The Maintenance Supervisor will oversee the daily maintenance activities, including scheduled preventative maintenance, equipment failure troubleshooting, management of equipment information and maintenance records, among other activities. If you are looking for a challenging role in a team orientated environment and a fast paced facility this is the job for you!

## What you'll do

- Lead and coordinate the maintenance function
- Oversee the preventative maintenance program on machines and equipment including coordination with other departments to schedule work
- Manage repair & maintenance and capital budgets
- Contribute to the development of capital projects and investments to support long term strategic goals, including transition to increased automation
- Oversee contractor selection and coordinate contractor activities including quotations, repairs and installation of equipment
- Manage vendor relationships and purchasing of spare parts and supply inventory to support repairs and reduce downtime
- Provide technical support to other departments on equipment selection
- Organize and issue RFP's for industrial projects
- Understand chemical process equipment, such as pumps, storage tanks, agitators, boilers, heat exchangers, HVAC and the associated codes and regulations
- Address corrective actions from non-conformances, safety and quality audits in a timely manner
- Other duties as assigned.

### **What we would like from you**

- University degree with five (5) years of chemical process industry experience, three (3) of which in a supervisory or management role.
- Thorough knowledge of federal and provincial laws and regulations applicable to the chemical, food, water treatment, and related industries.
- Proven knowledge of administering labor and union contracts and grievance procedures.
- Experience managing teams of up to 10 employees and managing contractors.
- Strong organizational skills and the ability to work independently, and demonstrates initiative.
- Effective written and verbal communication skills.
- Strong computer and mathematical skills
- Must have the ability to read and understand technical materials
- Forklift operation experience an asset
- WHMIS and/or TDG training an asset
- Must be able to lift up to 50lbs on a regular basis

### **What do we do?**

Univar is a leading global chemical distributor of industrial and specialty chemicals, food ingredients and related products and services. Our wide Canadian distribution network, with locations coast-to-coast, helps guarantee fast, reliable service to Univar's customers. Across North America, Europe, the Asia-Pacific region, and Latin America, our nearly 9,000 employees serve over 100,000 customers, representing nearly every major industry and a highly diverse set of end markets.

Safety is our top priority, the foundation for all aspects of our global business operations. Safe transport and storage of products, safe operational practices and safe working conditions enable us to protect our employees, customers, suppliers and the environment.
