

Site Manager

Location: Sturgeon, AB

Job ID Number: SMSTU1908

At Univar Solutions, we believe our culture is second to none. Imagine the stability of a multi-national corporation, with the comradery of a start-up. We foster a friendly, welcoming, high-performance environment where every idea and initiative is given the respect and attention it deserves. We're proud to offer our employees:

- Competitive salaries
- Comprehensive Medical/dental benefits
- Industry leading pension plan
- Bonus opportunities
- Paid training and development programs at every level
- Global career advancement and mentoring opportunities
- Education allowance

Our team is successful due to our mix of diverse backgrounds, education, experience and careers, and we are proud to be included on the Alberta Top 75 Employer list and a recipient of Canada's Safest Employer award!

About the position

Reporting to the General Manager, the Site Manager is a key member of our Operations team and directs the daily operations of the site to ensure the safe, clean and efficient operation of the facility. If you are looking for a challenging role in a team orientated environment and a fast paced facility this is the job for you!

What you'll do

- Lead, coach, and mentor operations team of 12 employees, and a site supervisor.
- Implement and manage regulatory compliance programs, branch health and safety program and conduct safety audits in conjunction with the EHS department, including hazardous waste generation and waste pickup transport.
- Support sales efforts consistent with corporate and regulatory compliance, health, safety and environmental affairs
- Responsible for maintenance, upkeep and housekeeping of facility, buildings, equipment and transportation fleet
- Manage department budget and operating plans in coordination with General Manager.
- Maintain close security and control over inventory, physical operations and branch buildings, tank farms, grounds and equipment
- Participate in the negotiation of labor contracts
- Oversee effective application of Quality Assurance programs and processes to ensure required product quality.

What we would like from you

- Bachelor's degree (preferably in Chemical, Mechanical, or Industrial Engineering) or in-depth knowledge of chemical distribution facility operations preferred
- 5+ years leadership experience in plant operations and/or warehousing and distribution.
- In-depth knowledge of Local, Provincial and Federal regulations affecting facilities in area of responsibility.
- Rail loading and transportation knowledge
- HazMat, Hazwoper, WHMIS, TDG certifications considered an asset
- Strong verbal and written communication skills
- Strong interpersonal and team building skills
- Working knowledge of governmental requirements related to the chemical industry; i.e. OSHA, EPA, RCRA, DOT, etc. or demonstrated ability to attain such knowledge

What do we do?

Univar Solutions is a leading global chemical distributor of industrial and specialty chemicals, food ingredients and related products and services. Our wide Canadian distribution network, with locations coast-to-coast, helps guarantee fast, reliable service to Univar's customers. Across North America, Europe, the Asia-Pacific region, and Latin America, our nearly 9,000 employees serve over 100,000 customers, representing nearly every major industry and a highly diverse set of end markets.

Safety is our top priority, the foundation for all aspects of our global business operations. Safe transport and storage of products, safe operational practices and safe working conditions enable us to protect our employees, customers, suppliers and the environment.
